All prices quoted in this catalogue are suggested retail prices and exclude VAT

Firecracker

Firecracker is a unique product, designed to meet a demand for secure underfloor or cupboard storage with an increased level of fire protection.

The safe is built of double skinned steel with a fire-retardant material sandwiched between the inner and outer surfaces. Locking is by a 6-lever safe lock.

All Firecrackers will take A4 documents. The Firecracker is subject to periodic fire tests, and is built to a high standard to withstand attack. However, please note that Sterling Wholesale makes no specific claim for the protection of contents against theft or fire, and no liability can be accepted for any loss caused by such.

Deed and Storage Boxes

3707B00 Sterling Safe/Bank Deposit Box - pewter (352 x 270 x 140mm) **£ 105.45**

3501B00 Document Box - dark grey (370 x 280 x 90mm) **£ 30.63**

Sterling Security Mail Boxes

Ordinary mailboxes are built to receive mail - but have very little security built into them. The Sterling Mailbox is designed and built to withstand most forms of attack. It features a strong steel construction with a Hammerite paint finish, 7-lever lock and internal baffle plates to prevent pilferage

8515B00 Sterling Security Mail Box **£ 184.07**
 8516B00 Sterling Security Mail Box with rear slot for internal use **£ 198.59**
 (Height 450mm, width 266mm, depth 140mm and mail slot 215 x 28mm with lift up flap)

Mailboxes can be built to special order to suit client's own requirements. Please contact our sales office for further details.

Joma Mail Boxes

The Joma self-stacks and can be assembled in multiple configurations, using plastic grommets. They are ideal for use in reception areas of flats, or for commercial premises. They can also be used as lockers.

Joma
 8650B00 Internal Mail Box - White **£ 33.15**
 Height 300mm, width 270mm, depth 90mm, mail slot 200 x 25mm.

Mailsafe

Mailsafe is designed to protect contents in the event of fire or arson attack. The unit incorporates a small gas-filled tube in the top section. In the event of fire, the tube is melted and discharges a gas to extinguish the fire

8660B00 Mailsafe **£ 153.64**
 (Height 550mm, width 320mm, depth 100mm. Slot 66mm x 294mm)

We manufacture safes, strongboxes and cabinets to special order.

We have been making safes and strongboxes for the locksmith trade for over 20 years. This page shows some of the more unusual products we have built.

There are any number of permutations for a custom-made box; choice of colour, size and gauge. Sometimes we are asked to fit locksmiths own locks; send us the lock and we'll fit it for you.

If you have a requirement for a custom-built safe or strongbox we can make it for you.

The products on the facing page are all available from stock.

TackGuard Safe
The TackGuard safe is sold into the equestrian community through one of our subsidiary companies Equine Security. It is designed for the storage of saddles and riding gear in vulnerable areas such as tack rooms and stables. It is shown here to illustrate the type of unusual safe we build to order.

Cube Cabinet Safe with deposit chute

Key Return Safe
This safe is designed to allow the safe return of car keys, out of office hours. The keys (or other items) are deposited in a completely sealed rotary cylinder that prevents any access to the inner chamber. The keys are then retrieved internally via a secure inner door. The safe is fitted into a block wall. The safe surround-plate is then adjusted via four threaded bolts to provide a tidy finish.

Cube Cabinet Safe with front and top slots

1 Brick Cabinet Safe with top slot

Cupboard Safe with 7 lever deadlock
MOT Safe with 7 lever slamlock
Both measure 350 x 210 x 130mm
